Objections

The specification was objected to because “09/345,068” on page 3, line 3 should have been “09/345,468”. Applicants note that this typo is actually on page 1 of the specification. Additionally, the Examiner asserts that the title of the invention is not descriptive and suggests changing the title to “Glycoprotein VI antibodies and uses thereof”. Applicants submit herewith an amendment to correct the typo on page 1 and Applicants have changed the title as suggested by the Examiner.
